Antivirus pricing Dec. 2019

F-Secure Endpoint Security $1,445 for 50 licenses.

Cloud-based service, cloud-based console.

Company based in Finland.

E-Set Endpoint Security $1,445 for 50 licenses.

Cloud-based or on-premise endpoint management.

Company is based in Slovakia.

Bitdefender Gravity Zone Business Security

 $1,202 for 50 licenses.

HyperDetect agent deploys to workstations.

Company is based in Romania.

Microsoft Intune $3,600 for 50 licenses.

Integrated endpoint management platform offers more than just antivirus protection.

Microsoft Defender Advanced Threat Protection is agent-less and cloud-based.

Norton LifeLock

No enterprise pricing information available at this time.

Broadcom is refocusing Symantec on the home user and phasing out Symantec Endpoint Protection.

Norton LifeLock product combines antivirus protection and identity theft protection.

Current deployment: Symantec Endpoint Protection, may be phased out by Broadcom.

  Current Tech Soup pricing of $6 per endpoint will likely end in the new year, and the license cost may increase to the full commercial price of $24 (or more) per endpoint, an increase of at least $18 per station, for a total increase of $900 per year to cover all workstations. Other low-cost antivirus solutions for non-profits may materialize before Symantec support ends.
